How do I get certified?

Visit certification.bubble.io and register with your Bubble account to take the Bubble Developer Certification exam.

What is the format of the exam?

The Bubble Developer Certification is an online, 90-question exam that takes about 2 hours to complete, though you will have more time allotted to take the exam.

Where is my certification listed?

Once you pass the exam, you can add your certification status to your Bubble agency profile, your resume, your LinkedIn account or wherever else you want to show off your certification.

What does the exam cover?

The exam covers every aspect of professional Bubble development and includes multiple choice, true/false, and fill-in-the-blank answers. Check out the FAQs below for how to prepare.

As the Bubble platform evolves, our certification exam will grow and adapt. To make sure the exam stays relevant and rigorous, we've partnered with select Bubble-Certified Developers in the form of a Certification Advisory Committee. They play a pivotal role in refining the test and influencing its trajectory.
